Enterprise Client Spotlight

HealthFirst Medical Group (Tier 1 — \$2.2M ARR)

Onboarded March 2025. Primary feedback: Atlas API performance excellent during normal load but experienced service disruption on April 14 (INC-2025-0187). Requesting HIPAA compliance module as a contract condition for renewal in Q4 2025. Contact: procurement@healthfirst.com. NovaTech CSM: Rachel Kim.

NOTE: Rachel Kim (Customer Success) and John Kim (Engineering) are different employees. Rachel's contact: r.kim@novatech.io.

BrightLogic Analytics (Tier 1 — \$1.8M ARR)

Expansion in Q2 2025 expected (+\$400K ARR). Key feedback: Nova Predict analytics engine highly anticipated — team is blocked on predictive modeling without it. Rate limit increases needed for their batch enrichment pipeline (currently hitting 429 errors at peak). Escalated to Product team.

Momentum Finance (Tier 1 — \$1.5M ARR)

SLA breach in Q1 2025 due to INC-2025-0187. Requesting SLA credit (\$15,000 estimated). Satisfaction score dropped from 8.2/10 (Q4 2024) to 6.1/10 (Q1 2025). Account at risk — flagged for executive sponsor outreach by CRO.

Positive Feedback Highlights

[Figure 2: Word Cloud of Positive Feedback Themes. As shown in the chart, top positive themes are: "fast inference", "great support team", "easy integration", "reliable uptime", and "clear pricing".]

Key themes from promoters: Atlas API integration described as "best-in-class" compared to competitors (Azure ML, SageMaker). Support response time rated 4.6/5. Multimodal document processing described as a key differentiator by 9 customers.
